LA Secondary School Places Scorecard for England

Introduction

This document presents school places figures for England covering quantity of places available, forecast accuracy of pupil projections, places allocated by preference, new places allocated by school quality and cost per place. It is intended to provide a downloadable, printable document of figures for individual Local Authorities as an alternative to our online dashboard (available [here](#)).

Quantity

£12.3billion

Total primary and secondary basic need funding 2011 to 22

18%

Growth in secondary pupil numbers 2009/10 to 2021/22

Places created since 2009/10, places planned to 2021/22 and estimated place pressure in 2021/22

A local authority can have both 'spare places' and 'additional places needed' due to localised or specific year group demand

37,480

Estimated additional secondary places to meet demand in 2021/22

10%

Estimated percentage of spare secondary places in 2021/22

Forecast Accuracy

Forecast accuracy of pupil projections for 2021/22, made one year and three years previously

The shaded area in each chart ending at the thick vertical line shows the forecasting accuracy for England. The starting point is 0, an accurate score, indicated by a dotted line. A shaded area to the right of 0 indicates an overestimate, a shared area to the left of 0 indicates an underestimate.

The grey dashed lines show the 25th and 75th percentile score for all local authorities.
